FOOD SHARE

BRAND GUIDELINES

INTRODUCTION: About Us

At Community Food Share, we're more than a food bank — we're a neighbor and a friend who's been part of the fabric of Boulder and Broomfield Counties for decades. So when it comes to fighting hunger, we focus on where we see it firsthand: our own backyard.

By being on the front lines, we identify where our efforts are needed most. It's a complex effort, and we know we can't do it alone. That's why we not only provide food directly to families, seniors, students, and others, we're also a hub — delivering millions of pounds of food a year to local partners to reach people in their communities. Because when we work together, we give even more people access to the fresh, nutritious food they deserve.

You may not realize it at first, but our work goes beyond distributing food (though that's a big part of it). We know accepting help can be a humbling experience, so we nurture a supportive environment that's free of judgement and absent of shame. The result? An experience that gives people their dignity back — because when you have access to food, you open the door to more of life's possibilities.

Yes, we're making progress, but food insecurity is still high — and that's exactly what fuels the work we do every day. From partnering with local farms to building a mobile food pantry, we're always finding new ways to source and deliver the best food to more people, so we can end hunger in our neighborhood for good.

visual identity

VISUAL IDENTITY: Our Logo

The logo is the heartbeat of our brand. It's the most important visual asset and the glue that holds all internal and external communications, and materials together.

[View Our Brand Guide](#)

COMMUNITY

The prominence of “community” compared to the other words in our logo reflects the emphasis we place on community, because that’s who we exist to serve.

HAND DRAWN

This design element reinforces the idea that we are not a cold, industrial entity, but a warm, friendly group of people united around a single, life-changing mission.

THE ‘LEAF’

This symbol represents the fresh, nutritious food we provide. It’s an ownable, differentiating mark that can be used as part of the logo or as an independent design element.

VISUAL IDENTITY: Logo Considerations

Logo files are supplied for viewing on computer screens and for use in print. Logos for screen use are in the RGB color format. Logos for print are supplied in the CMYK color format. It is important to use the appropriate format to ensure that the color is accurately rendered.

The logo is also available in JPG, PNG, and EPS formats:

.JPG (JPEG)

JPG images have a white background. This file format has been provided in large and small resolutions for both screen and print. Proper use is dependent on adequate resolution/size. To save file storage space, the general rule is to use the smallest size file that will produce a clear, sharp image. Never sacrifice image sharpness to save storage space.

.PNG

PNG images have a transparent background and are ideal for use with screens and the web. They have been provided in high resolution to eliminate a pixilated look. This file format does not support the CMYK color space and should not be used for professional printing.

.EPS

Often referred to as a vector file, EPS files are for professional use. This file type can be scaled to any size with no loss in quality and also contains the highest possible quality of all the included file types. When providing graphics to designers or publishers this is the main file to send.

ACCESS TO LOGOS

All materials incorporating Community Food Share logos should be produced using high-quality artwork to maintain clarity and quality of appearance. To ensure highest visual quality of the logo, copy and paste an original logo file for each use. Using a file previously saved for another use may result in degradation of the image.

VISUAL IDENTITY: Logo Considerations

Primary Logo

Whenever possible, use the full color logo. Works best on white and lighter backgrounds.

Secondary White Logo

Use on darker backgrounds or photography.

Secondary Black Logo

Use only when color printing is not available.

VISUAL IDENTITY: Logo Considerations

The clearspace around the lock-up ensures no other graphic element or paper edge competes or interferes with the logo.

VISUAL IDENTITY: Tagline

Our tagline quickly and clearly explains who we are, what we do, and where we do it.

Fighting Hunger in Boulder & Broomfield Counties

It can and should be used across a variety of channels, space permitting, including print, online, on site, and at events. It will always be surrounded by our new logo and/or messaging.

Where	When + How
Online	On the 'About Us' page, on web, and on social channels
Events	• On printed collateral (e.g. flyers, banners, stickers, etc.) • On the mobile pantry
On site	Logo lock-up on the building and internal materials (e.g. emails, memos, etc.)

VISUAL IDENTITY: Logo Considerations

Using our logo properly ensures that our brand is consistent and legible across a variety of settings.

DO use the white logo for dark backgrounds.

DON'T use the color logo for dark backgrounds.

DON'T change the logo colors.

DON'T stretch or skew the logo.

DO use the white logo for simple photographic backgrounds.

DON'T use the logo on busy photographic backgrounds.

DON'T tilt the logo.

DON'T use a noticeable drop shadow on the logo.

VISUAL IDENTITY: Photography Tone

It's not always possible to get the perfect photo, but these guidelines should help photographers stay on brand. If using advanced techniques, please refrain from 'over-editing' so we can match styles from many sources. When possible, framing the subject with ample white space and a shallow depth of field is nice for overlaying text later.

Happy, not needy

Fresh, not canned

Candid, not posed

Human, not sterile
